

Morris Inc. technician presented with service award

CAPITAL JOURNAL STAFF

DESHLER, Neb. — Reinke Manufacturing Inc., a leading manufacturer of mechanized irrigation systems, announces that Ryen Reed, of Morris Inc. in Pierre, has earned the Proven Leaders in Unmatched Service Certified Technician Award.

The prestigious award is one of the most elite technical service designations awarded by Reinke.

“Being recognized as a PLUS

Certified Technician is quite a remarkable accomplishment,” said Tim Goldhammer, vice president of marketing, Reinke Manufacturing. “Ryen has completed one of the most extensive technical service trainings available to Reinke dealerships and is to be commended for his hard work and effort.”

Reed qualified for the honor during a recent Reinke service training session held in November in Watertown.

The PLUS Certified Technician Program consists of a series of technical service-training classes and tests. Reed received the PLUS award by completing all of his classes and receiving very high marks on all testing.

A diverse provider of agriculture and construction services throughout South Dakota, Morris Inc. celebrated its 40-year anniversary in September.
